PROFESSIONAL SUMMARY

Aspiring Data Scientist and Machine Learning Engineer with hands-on experience in data preprocessing, exploratory data analysis (EDA), predictive modeling, and deployment of data-driven applications. Skilled in building end-to-end ML pipelines, NLP models using LSTM and GRU. Strong expertise in Python, data analysis, and predictive modeling.

TECHNICAL SKILLS

Python, SQL, Pandas, NumPy, Scikit-learn, TensorFlow, Keras, Machine Learning, Regression, Classification, Natural Language Processing (NLP), RNN, LSTM, GRU, Generative AI, Retrieval-Augmented Generation (RAG), Feature Engineering, Model Evaluation, Statistics, Data Analysis, Exploratory Data Analysis (EDA), Matplotlib, Seaborn, Power BI, MySQL, MongoDB, Git, GitHub, Streamlit, Jupyter Notebook, VS Code

PROFESSIONAL EXPERIENCE

Applied AI Trainee | Edunet Foundation | 3 Months

- Executed EDA and data preprocessing, enhancing data quality by ~25%.
- Worked with real-world datasets using Python, Pandas, and Scikit-learn.

iOS Application Developer Intern | SKLZTECT LLP | 9 Months

- Developed and deployed iOS applications using Firebase for real-time database and authentication.
- Processed and analyzed user interaction data using Python, identifying key patterns that helped improve application workflow efficiency by 20%.

PROJECTS

- Rossmann Sales Forecasting & AI Recommendation Dashboard | Python, EDA, Streamlit, LangChain, Mistral API**
 - Performed exploratory data analysis and feature engineering to uncover revenue-driven retail patterns and trends.
 - Delivered an AI-powered Streamlit dashboard producing automated sales recommendations.
- Customer Churn Prediction System | Python, Scikit-learn, Machine Learning, Predictive Analytics**
 - Modeled customer churn using classification techniques on behavioral and transactional datasets.
 - Improved predictive accuracy through preprocessing, feature selection, and segmentation strategies.
- Amazon Review Sentiment Analysis | Python, NLP, Transformers, LLMs, Streamlit**
 - Processed and classified customer reviews using NLP and transformer-based architectures.
 - Released a real-time Streamlit interface enabling interactive sentiment analysis.
- Weather & News Intelligence Assistant | Python, RAG, LangChain, Mistral API, Tavily API**
 - Architected a Retrieval-Augmented Generation system for real-time weather and news summarization.
 - Connected external APIs to generate contextual, AI-driven insights using dynamic retrieval pipelines.
- Movie Info Extractor (RAG System) | Python, RAG, LangChain, Mistral API, Streamlit**
 - Engineered a RAG-based system for structured extraction of movie-related information.
 - Orchestrated LangChain pipelines with Mistral API for accurate contextual responses.
 - Live Deployment:** <https://lnkd.in/gbsXEPkn>

EDUCATION

B.Tech (CSE) | World College of Technology & Management, Gurugram | CGPA: 8.4/10

CERTIFICATIONS

- Data Science with Machine Learning, Deep Learning, and Generative AI – **Ducat**
- Data Science Tools – **IBM**
- Build Your Own Chatbot – **Cognitive Class**
- AI Training Program – **Edunet Foundation**
- Machine Learning Workshop – **Intel**
- Power BI and AI Fundamentals – **Microsoft**

ACHIEVEMENTS

- Selected participant in **Smart India Hackathon (National Level)**, 2025
- Secured First Prize in an **Inter-College Hackathon** for an innovative technology solution
- Reached finalist stage in a **24-hour hackathon** at **NorthCap University**
- Nominated for the **Intel Unnati Industrial Training Program**, 2024
- Awarded the **DLF Foundation Merit Scholarship** for 100% tuition coverage
