Professional Summary

Seeking an Data Analyst / Data Scientist role to leverage expertise in analytics, machine learning, and predictive modeling. Proficient in data preprocessing, exploratory data analysis (EDA), statistical methods, feature engineering, and visualization using Python and SQL. Increased data quality by ~25% and reduced query response time by ~35% through optimized pipelines. Adept at deriving insights, creating dashboards, and applying models to support data-driven decisions.

Professional Experience

- 06/2026 – 07/2026

GrepR Consulting, Data Science Trainer, Freelance Project
 - Conducted Python, AI/ML, and Data Science sessions across Gurgaon campuses, emphasizing hands-on projects, practical applications, and industry-oriented learning.
- 03/2025 – 12/2025

SKLZTECT LLP, Data & Technology Intern
 - Explored datasets with Python, Pandas, and NumPy, uncovering trends and insights to support data-driven decisions.
 - Developed predictive models using Scikit-learn, incorporating feature engineering, validation, and performance assessment.
- 10/2024 – 12/2024

Edunet Foundation, Data Analyst (Intern)
 - Executed EDA, data cleaning, and preprocessing workflows, enhancing dataset quality by ~25% for analytical use.
 - Utilized Python and Scikit-learn to derive insights from real-world datasets and facilitate predictive analysis.

Technical Skills

- Programming & Querying** : Python, SQL, MySQL, Pandas, NumPy, SQL, Data Manipulation
- Machine Learning & Data Science** : Machine Learning, Scikit-learn, Regression, Classification, Predictive Modeling, Feature Engineering, Model Evaluation, Natural Language Processing (NLP), Deep Learning, TensorFlow
- Deployment** : Model Deployment, Streamlit Community Cloud, Vercel
- Data Analysis** : Data Analysis, Exploratory Data Analysis (EDA), Data Cleaning, Data Wrangling, Data Transformation, Data Mining, Statistical Analysis, Statistical Modeling, Statistical Testing, A/B Testing
- Data Engineering** : ETL, Data Pipelines, Data Modeling, Data Integration, Data Processing
- Data Visualization & BI** : Microsoft Excel, Power BI, Matplotlib, Seaborn, Data Visualization, Data Storytelling, Dashboard Development, Business Intelligence (BI), Reporting
- Databases & Tools** : MongoDB, Git, GitHub, Jupyter Notebook, VS Code, Streamlit

Projects

- Rossmann Sales Forecasting & AI Dashboard | Python, EDA, Streamlit, LangChain, Mistral API**

- Derive insights from retail datasets to identify revenue trends and key performance drivers.
 - Created an interactive dashboard to present insights and generate automated recommendations.
 - GitHub**: <https://github.com/priyanka297-tech/Rossmann-Sales-Analysis>
- Customer Churn Prediction System | Python, Scikit-learn, Machine Learning**

- Designed a classification solution to predict churn using behavioral and transactional record.
 - Optimized performance through preprocessing, feature selection, and segmentation methods.
 - GitHub**: <https://github.com/priyanka297-tech/Customer-churn-Analysis>
- Amazon Review Sentiment Analysis | Python, NLP, Transformers, LLMs, Streamlit**

- Analyzed customer reviews using NLP and transformer-based techniques.
 - Built a Streamlit interface for real-time sentiment evaluation and visualization.
 - GitHub**: <https://github.com/priyanka297-tech/Amazon-Product-Reviews-Analysis>
- Movie Recommendation System | Python, Scikit-learn, Pandas, NumPy, Streamlit**

- Constructed a recommendation engine using collaborative and content-based filtering.
 - Utilized similarity measures and feature engineering to enhance relevance.
 - GitHub**: <https://github.com/priyanka297-tech/Netflix-Movie-Recommendation-System>

Education

- 08/2022-05/2026

B.Tech (CSE), World College of Technology & Management, 124001
- Gurugram

CGPA: 8.6/10

Certifications

- Data Science with Machine Learning, Deep Learning, and Generative AI** Ducat
- Machine Learning Workshop** - Intel
- Data Science Tools and Build your own chatbot** - IBM, Cognitive Class
- Power BI and AI Fundamentals** - Microsoft
- AI Training Program** - Edunet Foundation

Achievements

- Selected participant in Smart India Hackathon (National Level), 2025
- Secured First Prize in an Inter-College Hackathon for an innovative technology solution
- Reached finalist stage in a 24-hour hackathon at NorthCap University
- Awarded the DLF Foundation Merit Scholarship for 100% tuition coverage
